PROJECTS

Mobile Web Application Development Class
- Voted top design for a mobile app

Term Project in Web Programming and Design Class
- In a team setting created a website for a fictional restaurant that included a photo slideshow at the top of each page (using JavaScript), a menu (using MySQL), an hours page that indicates if the restaurant is currently opened or closed (using PHP), and the rest of the design used HTML and CSS

Hackathon
- In a team of two others we brainstormed project ideas and made a website designed to benefit students all in less than 24 hours. Here's the link: http://ww2.cs.fsu.edu/~schramm/HackFSU/CollegeLyfe/CollegeLyfe/index.html
